

FULL SPECTRUM CANNABIS EXTRACT

PATIENT INFORMATION LEAFLET

Product name

Aurora THC:CBD Extract 1

12.5mg/mL THC and 12.5 mg/mL CBD

Product description

Oromucosal drops is supplied in a glass bottle with a pipette in the lid for easy dosage. The glass bottle contains 30mL of medicinal cannabis oil as oromucosal drops. The glass bottle has a screw cap and is childproof.

Content

1mL full spectrum medicinal cannabis oil as oromucosal drops is equal to **37 drops**

1 drop contains approx. 0.35mg THC and approx. 0.35g CBD

Dosage

Always use the medicine as prescribed by your doctor. If in doubt, contact your doctor.

Manufacturer address

Aurora Nordic Cannabis A/S
Bindekildevej 10
5250 Odense SV
Denmark

Mode of administration

1. Shake well before unscrewing the pipette

2. Gently squeeze the pipette to soak up the liquid

3. Lightly press the pipette again until a visible drop appears

4. Drip the number of drops the doctor has prescribed under the tongue

5. Keep the drops under the tongue for as long as possible for optimal absorption through the mucous membranes

6. When the bottle is nearly empty, keep it at an angle so that the slanted pipette can easily absorb the last drops

7. Please fill pipette with oil before closing the bottle to avoid overflow
