

Ceres No. 2

Plantations Cérés is a family-run company from Quebec that focuses on cultivating high-quality cannabis using modern technologies. The guiding principle here is quality over quantity. The focus on controlled cultivation of small batches results in consistently high-quality products.

Cannabis Flower

Cultivar: Slurricane Mint (Hybrid)

THC-Level: Very High

 **Type**
Indica-dominant hybrid

 **Ancestry**
Slurricane Mint is a cross between Slurricane and Margy's mint.

 **Aroma /Flavor**
Ceres No. 2 is characterized by a combination of sweet and petrol-like flavors, complemented by a slight mint note.

 **Possible Effects and Applications**
Patients report a calming effect that spreads throughout the body and puts them in a relaxed state. Ceres No. 2 may be suitable for the treatment of chronic pain, as well as for relieving anxiety, depressive moods, and stress-related symptoms.

 **Pack Size:**
10g
