

PEDANIOS 26/1 EHD-CA

Medicinal Cannabis

THC/CBD: approx. 26 % THC
< 1 % CBD

Dominance: Sativa

Cultivar: Electric Honeydew (EHD)

Genetics: Girl Scout Cookies x 91
OG Krypt Melon

Origin: Canada (CA)

Unit: 10 g

Strain description:

Hang-dried and hand-processed, Electric Honeydew (EHD) is an original San Rafael '71 variety that ensures the finest product quality and surprises with lively notes of melon, gas, and pine, along with a high THC content. This unique hybrid features dense, dark-green buds with bright flashes of orange pistils. The primary terpenes, myrcene and limonene, show analgesic, immunostimulant, and antidepressant properties.¹ In addition, this sativa-dominant cultivar is suitable for daytime use because to its energising, stimulating, and vitality-enhancing effects.

Plasma level of THC:

Blood plasma levels of THC after oral administration or inhalation intake [modified from Grotenhermen 2003]²

Terpene profile:

Inhalation:

Onset: after 2 - 8 min

Peak effect: after 10 - 30 min

Duration: 2 - 6 h

Using a vaporiser is a very efficient, fast-acting, and medically recommended form of administration. The optimal temperature setting is between 175 and 210°C.

Flowers with a high THC content limit the negative effects of vaporisation, as patients can consume less to achieve the desired effect.

TITRATION GUIDE

- There is currently no uniform starting dose for cannabis products nor uniform dosing information.
- The recommended starting dose should be 0.05 g of flower. For the PEDANIOS 26/1 variety, this corresponds to approx. 13 mg of THC. Depending on effectiveness and tolerability, the dose can be increased every 1 – 3 days at a maximum of 0.1 g of flower.³

Onset and duration of effects for inhalation and oral administration⁴

	Inhalation	Oral administration
Onset of Effect	 Within seconds to minutes	 Within 30 minutes to 2 hours
Peak Effects	 Full effects peak within 30 minutes	 Full effects peak within 4 hours
Duration of Effect	 Up to 6 hours or longer	 Up to 12 hours or longer

Adverse events should be reported to MHRA or your doctor or pharmacist.
Reporting forms and information can be found at: www.mhra.gov.uk/yellowcard
