CULTIVAR INFORMATION SHEET

Informational guide supplied upon request and intended for prescribers only.

GB | T19

Cultivar: Glitterbomb

Type I High-THC Cannabis Flower

British Pharmacopeia standard (BP)

Total THC 19%

Total CBD <1%

Lead Terpenes: Myrcene, Caryophyllene, Linalool

Phenotype: Indica-dominant

Indication: Night

Lineage: OGKB Blueberry Headband
x Grape Gasoline #10

Flower morphology: Purple hues running through
dense flower

Description: Compound Genetics' Glitterbomb is
named after the dense trichome coverage that covers
this purple and green hued flower. It has an aroma of
fruity and berry notes, but with a gassy back-end.

Cultivated in the UK.

An official 'Made in Britain' product.
