

Rainbow Pavé

Plantations Cérés is a family business established in Quebec, Canada, with over 10 years of experience in the agricultural sector.

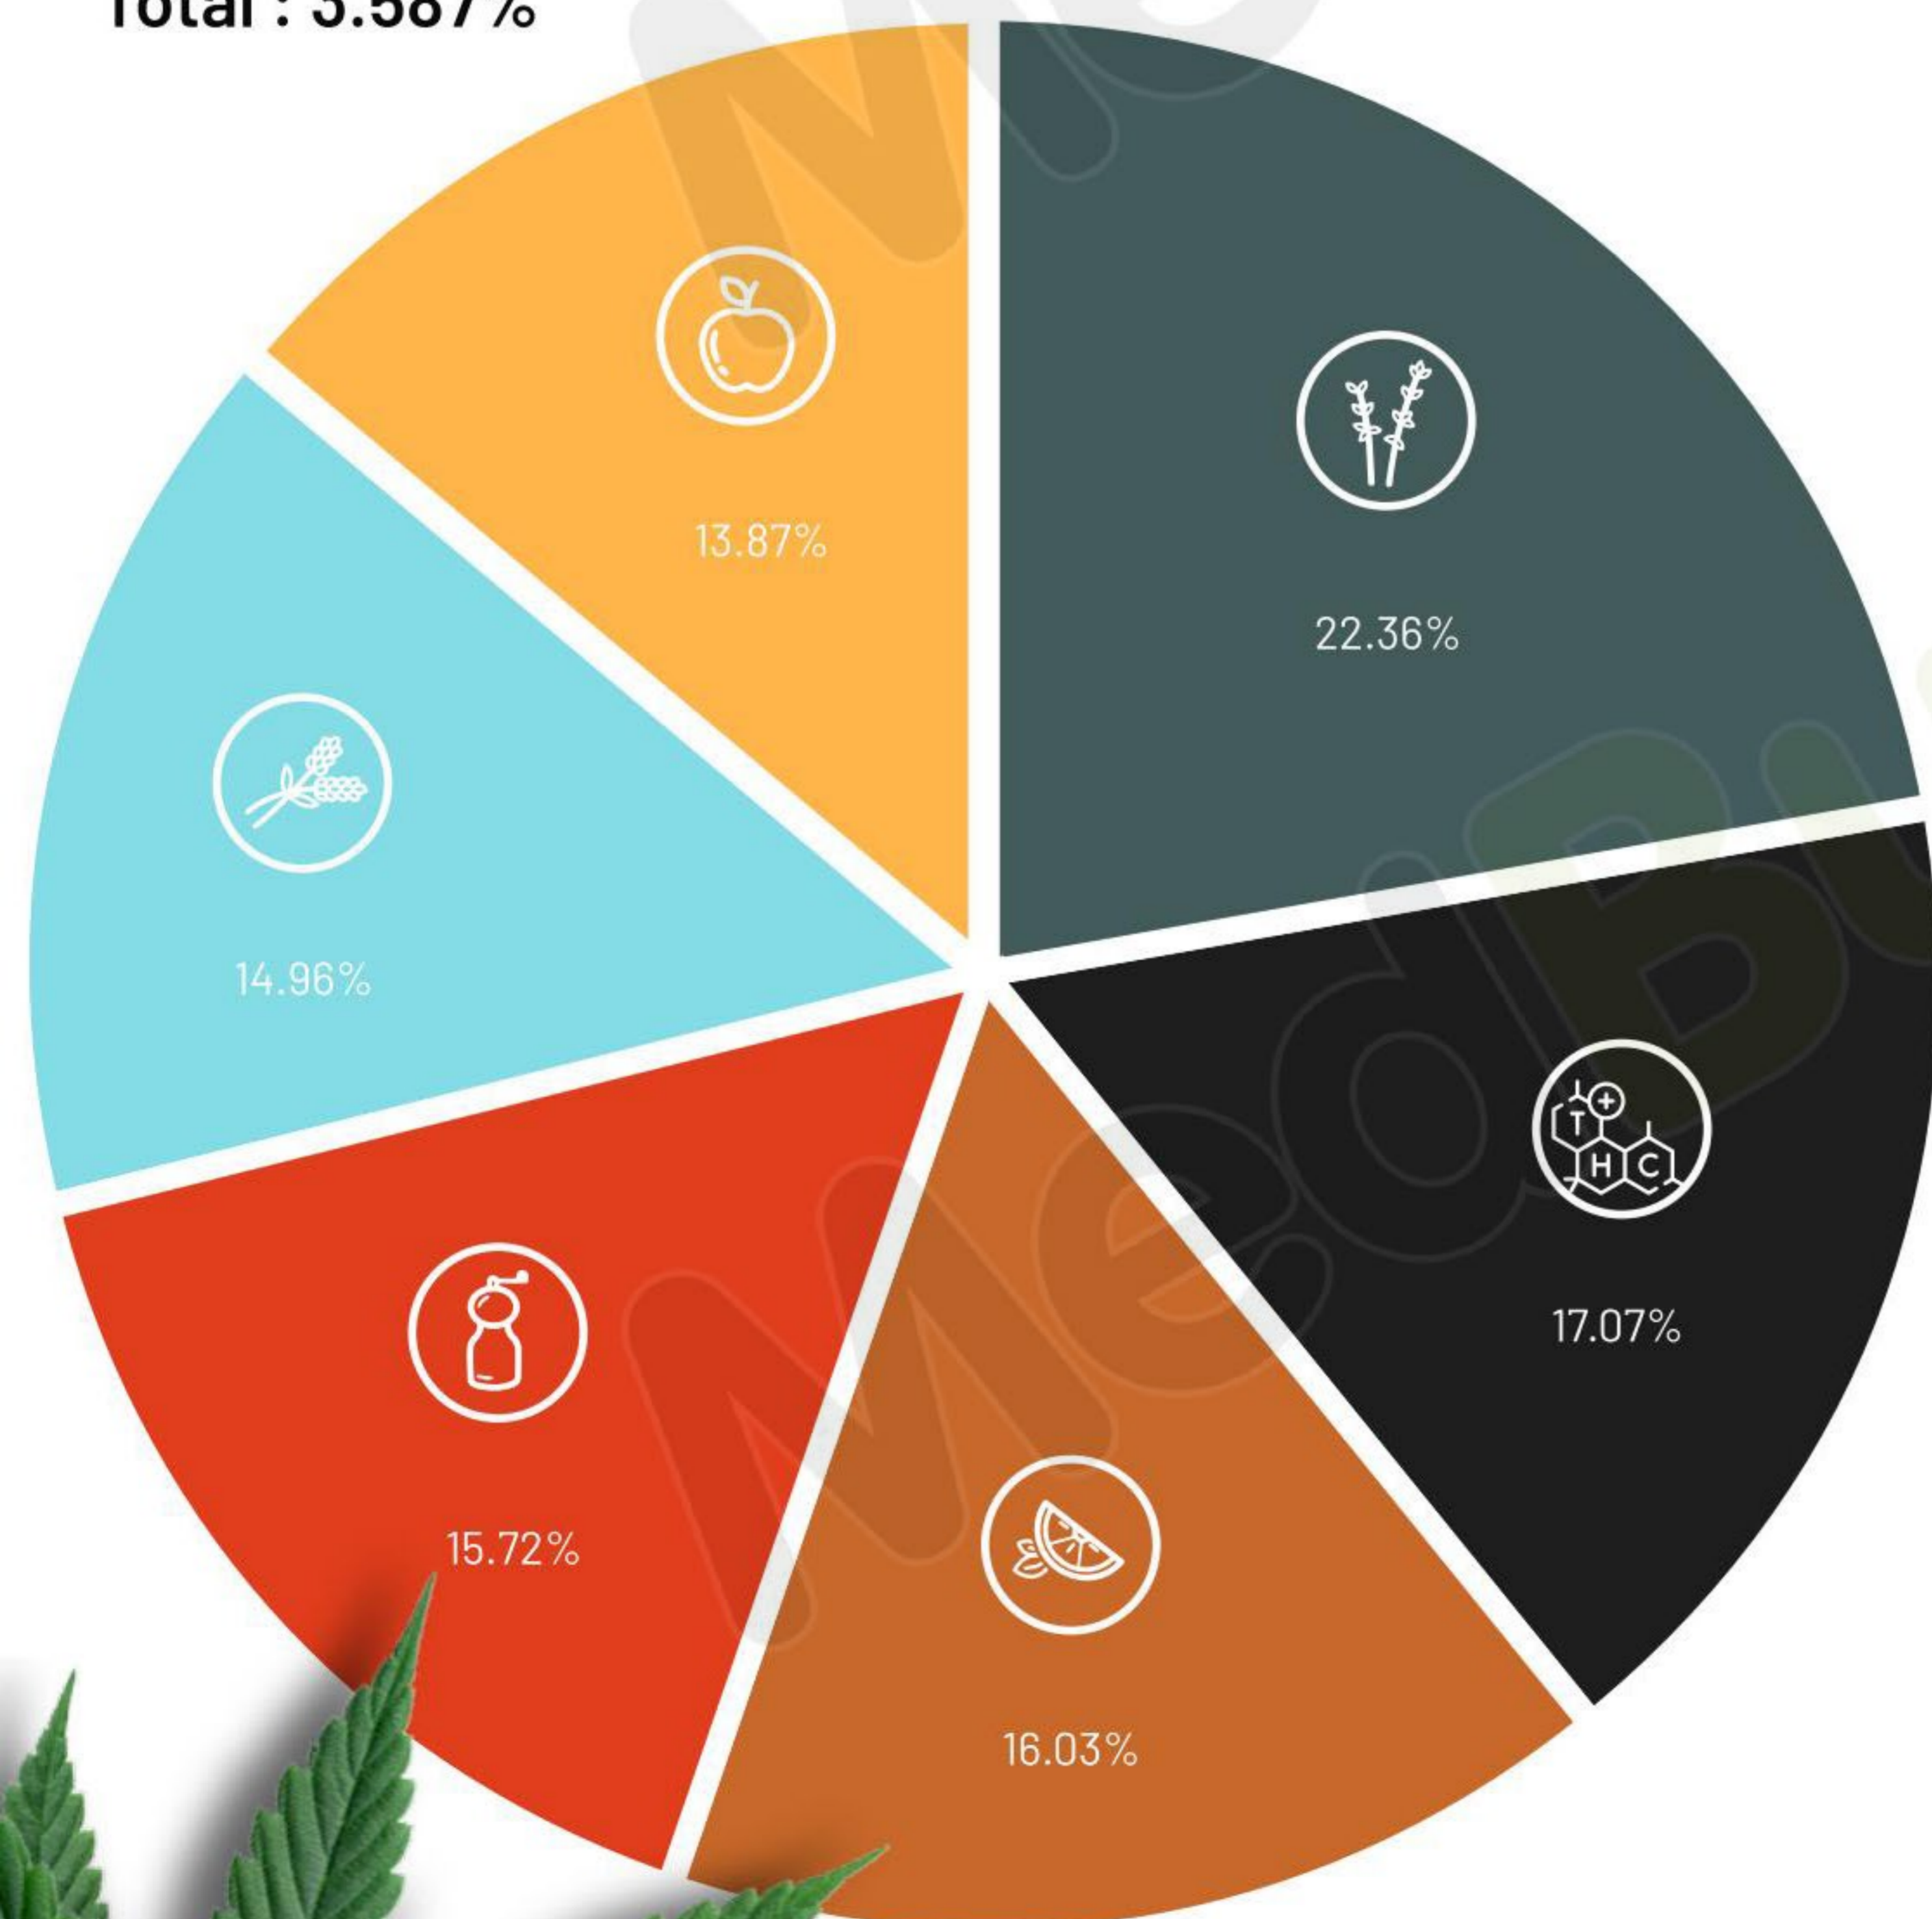

After one of the family members, who suffered from juvenile arthritis, discovered the medicinal properties of cannabis, the family began cultivating medical and recreational cannabis on a commercial scale. Since 2020, supported by a Health Canada cultivation and processing licence, the founding members of Plantations Cérés have had the opportunity to refine their expertise in a regulated environment. Having mastered various cultivation techniques, the family is proud to contribute to this growing industry by offering quality and consistency worldwide.
